CHEMICAL & ENGINEERING NEWS

MARCH 24, 2025

How rising
temperatures
affect the
brain
P.17

Can
bioglues
peel us
away from
petroleum?
P.21

2025 Priestley
Medalist

**Frances H.
Arnold**

P.28

“Beyond the tiny
fraction of possible
chemistries represented
in current biology lie
the solutions to the
climate crisis, the cure
to cancer, and maybe
even the cures to death
and taxes.”
